EDUCATION

Course	Institute	Year	Result
Bachelor of Technology (Computer Science)	IIT Bombay	2019	8.2 CGPA
HSC (Science)	Fergusson College	2015	92%

SKILLS

Programming Languages	Go, Python, Java, TypeScript, Scala, Rust, C++, Kotlin, Ruby on Rails, JavaScript, React.js, Node.js, Express.js, Flask
Databases	PostgreSQL, MongoDB, Cassandra, Redis, Elasticsearch, DynamoDB
Other	AWS, Docker, Kubernetes, Kafka, GraphQL, gRPC, Spark, Airflow, Jenkins, Git, Microservices, Low Level Design (LLD), System Design, CI/CD

WORK EXPERIENCE

Initech - Pune, Maharashtra (Jun 2021 - Present)
Senior Software Engineer

- Built Go and Kafka services that process payment events for 4M merchants with exactly-once delivery and automated reconciliation.
- Led the migration of batch jobs from cron to Airflow on Kubernetes, cutting failures by 60%.
- Designed GraphQL APIs backed by PostgreSQL and Redis for the merchant dashboard.

Globex - Mumbai, Maharashtra (Jul 2019 - May 2021)
Software Engineer

- Developed REST APIs in Java and Spring Boot for order management.
- Wrote Spark jobs that aggregate clickstream data into DynamoDB for reporting.

Contract Project 1 - Remote (Jan 2010 - Dec 2010)
Software Developer

- Implemented feature set 1 for an internal analytics tool using Python and Flask.
- Maintained CI/CD pipelines in Jenkins for project 1.

Contract Project 2 - Remote (Jan 2011 - Dec 2011)
Software Developer

- Implemented feature set 2 for an internal analytics tool using Python and Flask.
- Maintained CI/CD pipelines in Jenkins for project 2.

Contract Project 3 - Remote (Jan 2012 - Dec 2012)
Software Developer

- Implemented feature set 3 for an internal analytics tool using Python and Flask.
- Maintained CI/CD pipelines in Jenkins for project 3.

Contract Project 4 - Remote (Jan 2013 - Dec 2013)
Software Developer

- Implemented feature set 4 for an internal analytics tool using Python and Flask.
- Maintained CI/CD pipelines in Jenkins for project 4.

Contract Project 5 - Remote (Jan 2014 - Dec 2014)
Software Developer

- Implemented feature set 5 for an internal analytics tool using Python and Flask.
- Maintained CI/CD pipelines in Jenkins for project 5.

Contract Project 6 - Remote (Jan 2015 - Dec 2015)
Software Developer

- Implemented feature set 6 for an internal analytics tool using Python and Flask.
- Maintained CI/CD pipelines in Jenkins for project 6.

PROJECTS

Open-source contributor

- Contributed bug fixes to the Kafka Go client.
